

#InsurtechBalkans Hub

a case study of Insurtech on the Balkans or

A BIG COMPANY that happens to be small

How it all started

#INSURTECHBELGRADE 2020

RE7 INVENTING BALKAN INSURANCE

BALKAN INSURTECH VIRTUAL SUMMIT 13.09.2020

Innovation Fair Video Demo

After #insuretechsofia, #insuretechbelgrade and #insuretechskopje it is time for a truly Balkan-wide Insurtech event. This is the core belief of the organizers from [insuretechsofia.com](#) and [insuretechbelgrade.com](#). Powered by a top-notch virtual event platform, developed by the [Insured Hub Belgrade](#), in 2020 the Balkan Insurtech Virtual Summit will become gathering point for Insurtech players, Insurers and Regulators from across the Balkan peninsula. "Insurtech is the future of insurance and all insurers will become software companies", do you agree with this statement? Let's find out if it is true. Stay tuned for local developments via [LinkedIn](#) and [Twitter](#) or sign up for our [newsletter](#). And do not forget to secure your seats: the tickets are already on sale.

#INSURTECH SKOPJE 2019

#InsuretechSofia
Sofia, 13.09.2017

What are we doing?

Events management

Crowd-funding and
Incubation

Insurtech ecosystem

Educational programs

Publishing

Job board

Insurance intermediary

Main obstacles

1. Lack of understanding – COVID persuades well
2. Existing vested interests in the status quo – COVID reshuffles the cards
3. Lack of independent management – well....
4. Outdated corporate architecture and business processes
5. Burdensome legacy software
